

Following are the Day Care surgeries/procedures in a **Hospital** or a **Day care center** which require less than 24 hours **Hospitalisation** as an inpatient due to subsequent advancement in technology.

Operations of Ears

Myringotomy

Myringotomy with Grommet insertion

Myringoplasty /Tympanoplasty

Antral wash under LA

Mastoidectomy

Removal of tympanic drain

Operations on cardiovascular system

Radiotherapy

Coronary Angioplasty (PTCA)

Pericardiocentesis

Insertion of filter in inferior vena cava

Insertion of gel foam in artery or vein

Carotid angioplasty

Operations on GI system

Endoscopic Foreign Body Removal -Oesophagus/stomach /rectum.

Dilatation of digestive tract strictures

Endoscopic ultrasonography and biopsy

Endoscopic placement/removal of stents

Endoscopic Gastrostomy

Replacement of Gastrostomy tube

Endoscopic polypectomy

Endoscopic decompression of colon

Brochosopic treatment of bleeding lesion

Hernioplasty

Incision and excision of tissue in the perianal region

Surgical treatment of anal fistula

Surgical treatment of hemorrhoids

Sphincterotomy/Fissurectomy

Laparoscopic appendicectomy

Laparoscopic cholecystectomy

TURP (Resection prostate)

Glossectomy

Operations on Renal system

Endoscopic Drainage of Pseudopancreatic cyst

Lithotripsy

PCNS (Percutaneous nephrostomy)

PCNL (percutaneous nephrolithotomy)

Suprapubic cystostomy
Tran urethral resection of bladder tumor
Hydrocele surgery
Epididymectomy
Orchidectomy

Operations on Respiratory system
Endoscopic Foreign Body Removal - Trachea /- pharynx-larynx/ bronchus
Therapeutic ERCP
Brochosopic treatment of fistula /stenting

Operations on the Breast
Excision of breast lump /Fibro adenoma
Operations on the nipple
Incision/Drainage of breast abscess

Operations on the eyes
Reduction of dislocation under GA
Cataract surgery
Excision of lachrymal cyst
Excision of pterigium
Glaucoma Surgery
Surgery for retinal detachment
Chalazion removal (Eye)
Incision of diseased eye lids
Excision of eye lid granuloma
Operation on canthus & epicanthus
Corrective surgery for entropion & ectropion
Corrective surgery for blepharoptosis
oreign body removal from conjunctiva
Foreign body removal from cornea
Incision of cornea
Foreign body removal from lens of the eye
Foreign body removal from posterior chamber of eye
Foreign body removal from orbit and eye ball

Operations on the female sexual organs
Transoral incision and drainage of pharyngeal abscess
Dilatation and curettage
Myomectomies
Simple Oophorectomies

Operations on the nose and the nasal sinuses
Excision and destruction of lingual tonsil
Foreign body removal from nose
Reconstruction of middle ear
Incision of mastoid process & middle ear

Operations on the Salivary Glands and salivary ducts
Incision of lachrymal glands
Reconstruction of the tongue
Incision and lancing of the salivary gland and a salivary duct
Resection of a salivary duct

Operations on the Skin and subcutaneous tissues
Suturing - CLW -under LA or GA
Surgical debridement of wound
Therapeutic Ascitic Tapping
Therapeutic Pleural Tapping
Aspiration of an internal abscess under ultrasound guidance
Aspiration of hematoma
Incision and Drainage
Incision of pilonidal sinus
Local excision of diseased tissue of skin and subcutaneous tissue
Simple restoration of surface continuity of the skin and subcutaneous tissue
Free skin transportation, donor site
Free skin transportation recipient site
Revision of skin plasty
Destruction of the diseases tissue of the skin and subcutaneous tissue

Operations on the tongue
Incision, excision, destruction of the diseased tissue of the tongue

Operations on the tonsils and adenoids
Bronchoalveolar lavage & biopsy
Tonsillectomy without Adenoidectomy
Tonsillectomy with Adenoidectomy

Orthopedic Surgeries
Therapeutic Joint Aspiration
Direct Laryngoscopy with or w/o biopsy
Reduction of nasal fracture
Removal of metal wire
Incision of bone, septic and aseptic
Closed reduction on fracture, luxation or epiphyseolysis with osetosynthesis
Suture and other operations on tendons and tendon sheath

Other operations on the mouth and face
Reconstruction of a salivary gland and a salivary duct
External incision and drainage in the region of the mouth, jaw and face
Incision of hard and soft palate
Excision and destruction of the diseased hard and soft palate
Incision, excision and destruction in the mouth
Surgery to the floor of mouth

Palatoplasty

Other Operations

True cut Biopsy - breast/- liver/- kidney-Lymph Node/-Pleura/-lung/-Muscle biopsy/-Nerve biopsy/-Synovial biopsy/-Pericardial biopsy
Endoscopic ligation/banding
Sclerotherapy
Nissen fundoplication for Hiatus Hernia /Gastro esophageal reflux disease
Quinsy drainage
Excision of nose granuloma
Blood transfusion for recipient
Therapeutic Phlebotomy
Haemodialysis/Peritoneal Dialysis
Chemotherapy
Renal angioplasty
Tumor embolisation
TIPS procedure for portal hypertension
Herniorrhaphy
Varicose vein stripping or ligation
Excision of dupuytren's contracture HG/V004/wef 1st Oct 2013 16
Carpal tunnel decompression
Excision of granuloma
Arthroscopic therapy
Surgery for ligament tear
Surgery for meniscus tear
Surgery for hemoarthrosis/pyoarthrosis
Removal of fracture pins/nails
